## Year 8 Curriculum Overview – **THEME OF POWER**

**Intent:** By the end of year 8 students will have read a breadth of literary texts understanding how the writer has created the text to convey a specific meaning, both explicitly and implicitly. They will explore characterisation further, understanding tone and perspective and how these may change or develop throughout a text. Students explore how genre and structure can influence the way texts are shaped and the language used by a writer, and they should be able to apply this understanding to their own writing, creating tone, using voice and a range of linguistic methods for effect. Students will study a complete Shakespeare play, exploring dramatic form, genre and themes. They will explore the significance and influence of context and begin to explore the way society and its values have changed over time. Through their exploration of poetry, students will be able to develop their appreciation of form, structure and language further and begin to interpret the methods used, exploring the intended meanings.
