

BTEC Sport Year 9 – What we will be learning in PE this term

As sports men and women, our Y9 students are currently studying Unit 2. This unit is focused on **rules and officials** in sport and the **practical performance** of individuals. They are currently producing work on the rules, regulations and scoring systems of two sports and the roles and responsibilities of the officials involved in them.

Parents, you can help by encouraging your child to **read up and then discuss with you** the following:

- Rules and regulations in football
- Rules and regulations in badminton
- The scoring system in both sports
- The role of an official in both sports

Coaching videos and how to improve technique:

BTEC Sport Years 10 & 11 – What we will be learning in PE this

As sports men and women, Our Y10 and Y11 students are currently studying Unit 2. *The practical sports performer*. This is their coursework unit and is worth 25% of their overall grade. They have studied such topics as; **Rules and regulations, and scoring systems of badminton & football, the role of officials in badminton and football, be able to demonstrate techniques and tactics in these two sports, and then be able to evaluate their performance using an observational analysis checklist.**

To support this Unit, I would suggest that students research the areas listed below.

Parents, you can help by encouraging your child to **read up and then discuss with you** the following:

- Rules and regulations, and scoring systems of badminton.
- Rules and regulations, and scoring systems of football.
- The roles of officials in badminton and football.
- The different techniques and tactics for badminton and football
- Future developments in technology in order to aid the officials for badminton and football

All of these key components can be found on this website:
