Dear Parent/ Carer

RE: Year 11 SLT Student Progress Review Meetings

At The Hart School, we aim to ensure that every student achieves their full potential, both academically and personally, during their time with us. We are committed to supporting your child in every way possible as they embark on their final year of high school and the crucial build up to qualifications and next steps.

As part of our commitment to ensuring all students are clear about their potential and strive to achieve this, we invite all parents/carers to attend a Progress Review Meeting with a member of our school leadership team. This is a great opportunity to ensure we are all clear about exactly what current performance looks like from a progress perspective. We will have a different style report which focuses on progress of students per subject compared to national performance of students with the same starting ability.

The meetings will be conducted in a drop-in style – simply arrive and sign-in and take the next available slot with any member of the leadership team. They will be available Tuesday 19th September 3:30pm – 5pm and Wednesday 20th September 3:30pm – 6pm. Refreshments will be available as will revision material for review and to purchase (card payments only).

Students who attended the progress discussions with parents/carers last year made significant progress in key subjects during Y11. They valued the clarity of where there was underperformance or untapped potential and gained real focus in moving forward with their studies.

To allow us to best prepare for this important evening next week, please complete this MS form [Y11 Progress Review Meetings](#) to indicate your attendance and likely time slot. It would be fantastic to see every single Y11 student with a parent/carer at these meetings.

Yours sincerely

Mr N Donlan
Director of Achievement
